Professor Biljana Antonijevic
Toxicological Risk Assessment
Centre
Faculty of Pharmacy
University of Belgrade
Vojvode Stepe 450
11221 Belgrade
Serbia

28 February 2017

Dear Professor Antonijevic,

Thank you for the message received on 28 January 2017 regarding the WHO Chemical Risk Assessment Network. On behalf of the World Health Organization, I am pleased to welcome the Toxicological Risk Assessment Centre, Faculty of Pharmacy of the University of Belgrade in Serbia as a Network Participant from 1 March 2017.

I would like to explain the arrangements and contact details for the WHO Secretariat. The Network web pages can be viewed at the following address: www.who.int/ipcs/network/en. For issues relating to the day to day running of the Network, the WHO Secretariat can be contacted via the e-mail address ipcsmail@who.int, for the attention of Richard Brown who will be the primary technical contact at WHO HQ in Geneva. Carolyn Vickers has managerial oversight of the Network. If necessary, they can be contacted directly at brownri@who.int or vickersc@who.int.

We look forward to working with you on Network activities.

Yours sincerely,

Dr Maria Neira
Director
Department of Public Health, Environmental
and Social Determinants of Health
